

PROJECT DETAILS:

The 2,800 square foot fast food restaurant was a new construction project for Gillis Gilkerson. The interior décor and style are modeled after New Orleans, Louisiana and seating accommodates 65 customers. The client and owner, Mike Abercrombie from CATO Oil LLC is a repeat customer of Gillis Gilkerson. The company built his 52nd Street Assawoman Ale Shoppe in Ocean City, Maryland and completed several other renovations to other existing Popeye's, Goose Creek and Subway stores across Delmarva.

"Gillis Gilkerson is always a pleasure to work with. They assisted with the permitting process from the beginning and have a great reputation for being on time and on budget while delivering a quality product. Delaware is growing and Rt. 113 is a hot spot making Millsboro the crossroads of Delmarva. We are excited to build a new business for locals and travelers alike."
